

WELCOME TO THE

NATIONAL PEACE CLUB

We believe that peace is achievable through good relationships and negotiations. Peace may be an idea but we can turn an idea into an accomplishment through the power of each other.

INTRODUCTION

The general principle of the **NATIONAL PEACE CLUB** is to bring about a change in awareness and patterns of thought which will lead to a change in the behavior of young people specially students. This will result in a way of living in which the values of mutual respect and tolerance for others and an equal and just society will become a reality. It will be a society that regards peace as a state of mind, a chosen value, a norm and a way of life and who are interested in exploring the theme of peace.

Our Vision

Our vision is to promote & develop a culture of peace.

Our Mission

Our mission is to promote projects that will give peace as alternative to violence and war, love as alternative to ethnic hatred, hope as alternative to despair, and wholeness as alternative to diseases and decays, which are the direct consequences of violence and war in our loving Country Pakistan.

Our Objects

Our objective is to encourage our Country and Specially City's students and People of to say NO to wars and violence but to say YES to peace, and most importantly to enable the grassroots to cultivate a new lifestyle of peace and take initiatives for homegrown peace efforts. Provide a forum for members to discuss matters of common interest. Bring into fore the plight of members with a view to providing possible solutions to such problems. Provide moral and financial assistance to members.

To me peace means brotherhood, interrelationship and live happily. Nowadays it is very difficult to find peace in this world but found it when we are working for this peace project and preparing **WORLD'S LARGEST PEACE BANNER (100 Kms)** and getting Messages with Signs with out any different of religions, cultures Languages and different opinions. But we worked together with a lot of understanding and then I realized that if we can work together even though we are from different religions then why the other students and people of our City, Country and Especially in the world can't. This peace

movement is an excellent step towards bringing peace and harmony to the City and Country first and then the world at large.
